punkish radiation

“The nicest monospaced fonts were found on real typewriters with a fresh ribbon.”

DESIGNER DESCRIPTION: Consolas is intended for use in programming environments and other circumstances where a monospaced font is specified. All characters have the same width, like old typewriters, making it a good choice for personal and business correspondence. The improved Windows font display allowed a design with proportions closer to normal text than traditional monospaced fonts like Courier. This allows for more comfortable reading of extended text on-screen. The look of text can be tuned to personal taste by varying the number of bars and waves.
